

### **ATTENTION ALL VRCC CLIENTS - IMPORTANT COVID-19 UPDATE:**

With the new regulations and opening up of businesses around Colorado, we have decided to go into Phase 2.0 of our Covid-19 plan. Please see the bullet points below that outline what Phase 2.0 will look like. Phase 2.0 will start on Monday, June 15th.

- Surgery, Internal Medicine, and Cardiology are the only departments that will be part of the initial stage of Phase 2.0.
- New patient appointments ONLY are allowed within these 3 departments for this initial stage of Phase 2.0.
- There will be a limit of 2 people per patient allowed in the hospital.
- All clients will still need to call when they arrive at VRCC for their appointment.
- Department coordinators or a member of our Front Desk team will go through our Covid-19 Questionnaire with all clients over the phone.
- Clients will be asked to wait in their vehicle until a staff member comes out to guide them into the hospital.
- All Clients MUST wear a mask when they are in the building at all times.
- We will still be offering curbside service for all clients including new patient appointments if they wish to remain in their vehicle.
- All communication and transactions will be done in the room or in the client's vehicle prior to leaving.

**\* Clients are not permitted to wait in the lobby at this time.\***

We will be continuing with our increased sanitation efforts, and adding the following protocols during this initial stage of Phase 2.0:

- Exam rooms will be sprayed and/or wiped down with disinfectant spray/wipes after a client exits the room.
- Additional hand sanitizers will be installed to the lobby area, between exam rooms, and common areas.

After we are able to monitor this initial stage of Phase 2.0 for some time, we will move to the next Phase of opening up further. We will continue to post updates on this page, as well as our [Facebook Page](#).

Thank you and we look forward to seeing you soon!

Sincerely,  
Your VRCC Team
