

ATTENTION ALL VRCC CLIENTS - IMPORTANT COVID-19 UPDATE:

With the recent rise in cases of COVID-19 in Colorado, we have decided to go back to 100% curbside visits with all departments effective starting Wednesday, November 11th.

- All clients need to call when they arrive at VRCC to see any department.
- Department coordinators or a member of our Front Desk team will go through our Covid-19 Questionnaire with all clients over the phone.
- Clients need to remain in their vehicles, and will not be permitted in the building.
 - The only exception for this will be end of life procedures. Client(s) that enters the building MUST wear their masks at all times.
- All communication and transactions will be done over the phone, or at the client's vehicle prior to leaving.

We will be continuing with our increased sanitation efforts across the hospital.

Once cases are steadily decreasing, we will revisit re-opening the hospital for clients. We will continue to post updates on this page, as well as our [Facebook Page](#).

Thank you and we look forward to seeing you soon!

Sincerely,
Your VRCC Team
